

**Online Tutoring - it's highly effective and it's cool – it's convenient, and it's cost effective, it's in-person – but you're learning from your home!** This is the new world of OUR tutoring – in-person online tutoring – from fourth grade through college and adult tutoring - it's a blend of high quality education and the newest in 21<sup>st</sup> Century technology! This unique online process **seeks to replicate the student/tutor/parent experience** as if all were in Naples, FL – at our Learning Center – and for example – “just like being there” – tutor and student will see each other, converse and share materials and a whiteboard and parents will receive feedback soon after each session!

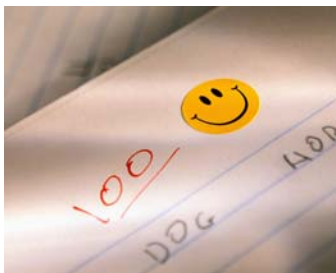

We started as a “brick and mortar” tutoring firm in 2004 in Naples, FL and now have expanded to the wide world of the internet! Our tutors are certified teachers, retired educators and other professionals who are dedicated to improving education across America. All have at least one degree, but most have multiple degrees – all from recognized schools. And won't it be nice to have an online tutor who you can see and understand combined with the personal service of our trained Education Director.

**Our core values and philosophy – Each student is a blessing!** - and each student works at a different level and at varying speeds -- but no matter the level of academic achievement and mental ability -- each student can be successful with our tutoring assistance -- that's the mission of **American Tutors Online™**.

**And, we are “green” - in our online world, energy utilization and materials such as paper are kept to a minimum as is our carbon footprint. You are helping yourself – you are helping humanity!**

We offer discounted multi-session plans as well as single sessions - and we do not require contracts or expensive up-front diagnostic tests. We also offer a **Tutoring Buddies™** program where two or three students who are studying the same subject can be tutored together to reduce the hourly cost for each student – all to meet the needs of families across America!

**Join us on this exciting journey and imagine what it will be like for you by taking a quick look at our demonstration video on our website – [www.americantutorsonline.com](http://www.americantutorsonline.com). THEN CALL OR EMAIL US!**
